

El decurs de la vida (the course of life)

MARGA GÓMEZ DEL CERRO

OPENING: SATURDAY 19TH OF MARCH FROM 11 TO 14 O'CLOCK > ART PALMA BRUNCH

One year more we invite you to enjoy the ART PALMA BRUNCH, an attractive route for the art galleries of Palma where art and gastronomy shake hands.

ABA Art has the pleasure to present the new exhibition "the course of life" by the artist Marga Gómez del Cerro (Barcelona, 1958). The way we describe in our lives, its briefness and the passing of time, are the reflexive axles on which the artist realizes her sculptures. In a progress of permanent construction, same as in life, her works rise up over solid bases and place themselves with fragility. We notice an elegant challenge: constructions in balance at the point of creating, collapsed and incomplete. In the words of Bernart Nadal dedicated to the artist, "the course of life lets us know that our dreams are short and the trip is long". Marga Gómez del Cerro started her artistic career at the art school Massana in Barcelona where she studied interior design, always accompanied for her passion for the antique and small curiosities.

WE'RE AWAITING YOU!
